**ANNEXURE – IV**  
**TWO BEST PRACTISE OF THE INSTITUTION**

Two of the Best Practices followed in the Institution are elaborated as below :

**Best Practice I:**

1. **Title :** Annual College Week.

2. **Objective :**

1. To identify hidden talent of the students.
2. To develop personality of the students.
3. To promote co-curricular activities.
4. To promote physical and mental health of the students.
5. To inculcate healthy competition.

3. **The Context :**

Majority of the students studying in this College come from villages, middle and below middle class families, below poverty. With such background, a holistic development of the students must be kept in mind to train and motivate them to develop leadership qualities, to build up their confidence, cultured and to develop a spirit of healthy competition. Hence it, becomes our social and moral responsibility to provide the best possible support to the students for their holistic development.

As physical and mental forms a major area the education must nurture and train to promote conduct of good citizenship and living, various competitions are organised to exhibit the talents and potential of the students.

4. **The Practice :**

Every year various programmes like debate, dance, singing, drama etc. are arranged in Annual College Week for overall development of students. In these programmes students show their hidden talents. Due lack of opportunity, the students do not get ample opportunities to expose their skills and talents. In such circumstances, college is the only place where they can present their talents. The Principal and all the teachers of the college understand this fact and therefore motivate all the students for participation in various sports and cultural programmes organized for them.

5. **Evidence of success :**

It has been observed that the physical fitness of the students personality has been transformed. Some students have very good debating skills, various sports talents were observed and some have talents to pursue a career in sing in.

***Problems Encountered :***

1. The College does not have an auditorium, sports indoor stadium, etc., and has to rent from the nearby locality.
2. Many students are shy and they do not come forward to show their skill and talent.

**Best Practice II**

**1. *Title of the Practice:*** Award of Appreciation

**2. *Goals :***

- To encourage the faculty for doing Ph.D.
- To encourage the faculty for doing research works.
- To encourage the faculty for presentation of research papers at seminars/ conferences/workshops.
- To encourage the faculty for publication of research papers.
- To encourage the faculty to contribute their knowledge and research works towards the society through participation in professional association and publication of articles in newspaper, journals, etc.

**1. *The Context :***

The two essential pillars of higher education are teaching and research. 'Research,' in higher education, in particular has assumed significance in the globalised world of today. The accrediting agencies like NAAC also have research expectations from institutions of higher education. Through the syllabus, the UGC has also ensured the faculty and student's engagement in research and scholarly activities and providing adequate resources and support to encourage such engagement. In the light of this initiative, faculty members are encouraged to register for Ph.D., M.Phil., and to pursue research works so as to facilitate and enhanced their knowledge and learning.

The performance evaluation of teachers with the introduction of Academic performance Indicators (API) for the assessment of teacher's performance implies an uninterrupted research and publication initiative, thereby, assuming greater importance in the institutions of higher education. With this background the College has given impetus to research activities in the institution, as well as attendance and presentation of papers in seminars, workshops, conferences and the publication of research works.

As an impetus for research and academic pursuit, and, as well as an encouragement for fruitful contribution towards the healthy growth of the society the College gives Award of Appreciation for Contribution Towards the Harmonious Growth of the Society

**4. *The Practice:***

To achieve this goal, certain steps are taken as follows :

- The Research and Consultancy Cell give encouragement towards the initiative to the faculty members.
- Information regarding invitation to seminars/conferences/workshops are given to the faculty members.
- Records and documentations are maintained.

**5. Evidence of Success :**

The achievement of the initiative can be briefly highlighted as follows :

Since, 2007 ie., after NAAC accreditation, the following faculty members have attain a Ph.D and M.Phil degree –

*Ph.D. degree awardee -*

1. Dr. J.V. Nunchunga, Department of Economics
2. Dr. C.Lalremruata, Department of Education

***Problems and solutions:***

With a minimum number of faculty members in each department, there is a strain upon the Principal to grant a study leave to all the faculty members intending to pursue research.

Some of the faculty members are house wife and can spare little or no time to pursue research activities or to write seminar papers or articles.

However, the Principal has given encouragement to all the faculty members that problems arising from pursuing of research and related activities would be addressed within his capacity.
